

**Master of Public Policy
(Disaster Policy Concentration) - DRAFT**

2009-2010

Disaster Policy. This concentration focuses on local, state, national, and international policies to manage risks related to natural, technological, and other man-made hazards and on the linkages among disaster, environmental, public health, sustainable development, and related policies. The Disaster Policy concentration of the MPP takes advantage of the courses available in the School as well as the university’s Public Health program. The concentration in Disaster Policy would provide preparation for a career in a variety of public agencies at all levels of government that deal with disaster mitigation planning and policy. This concentration complements our existing certificate program in Disaster Management.

REQUIRED CORE COURSES (21 credit hours)	Credits
PAUS 8011: Politics and Policy	3
